DAVE BALL hasn't had a word to say for a week. What's wrong?

St. CHARLES COUNTY wheat crop this year is estimated at 1,500,000 bushels, which is 200,000 bushels more than the previous high record in 1907.

GOVERNOR HADLEY and Senator Ben Tillman will deliver addresses at the National Conference of Modern Woodmen of America, which convenes in St. Louis, July 2.

The people in Missouri read the newspapers now and know what's going on. They can no longer be held in line with the Bourbons by fiery speeches from Democratic orators.

The Montgomery County Fair Association will hold a meeting in this city Saturday and take such steps as are necessary to get busy with the preparation of the grounds.

The sun was in partial eclipse for a few minutes June 17, Missouri Democrats felt an interest in the occasion because they had a like experience last fall, one which did not terminate so quickly, however, and promises to become total.

The editor of the Globe-Democrat thinks that he knows how to discharge the duties of Chief Executive of the Nation, much better than does Mr. Taft. What a pity that the people of the country have never discovered his greatness.

MISSOURI had a Democratic Governor this week. Senator George W. Humphrey of Shelby, president pro tem of the Senate, is performing the duties of the office in the absence of Governor Hadley, who was called to Des Moines, Kansas by the death of his father and of Lieut. Governor, Jacob F. Gmelich, who is summering among the northern lakes.

CHAIRMAN WALTER S. DICKEY of the Republican State Committee was in Washington this week. He had interviews with the President, Secretary Nagel, Arthur L. Vorys of Ohio, Dennis Flynn of Oklahoma, Frank H. Hitchcock of the Postoffice Department and others. He did not make public the purpose of his visit to the seat of government.

**\$1. A BUSHEL**  
— FOR —  
**New Wheat**

We offer \$1.00 per bushel for 25,000 bushels of No. 2 wheat delivered on or before July 18, 1909 in our elevator at Montgomery City, Mo.

If wheat does not grade No. 2 other grades will apply on contract at market difference day of delivery.

This offer good for acceptance before Monday, June 28, 1909, at 6 o'clock p. m.

No crop too large or too small for us to handle.

**PRAIRIE MILLING COMPANY**  
Montgomery City Mo.

THE great man of the people need not concern themselves about the stunts of our fathers at Washington in clapping duties on hides in the Senate or of pulling the duties off of hides in conference. It's only a game of hide and seek between the Leather Trust and the Packer's Combine anyhow. An honest shoe is harder to find in our day than was an honest man in the good old days of Diogenes.

THE Elsie Sigel incident is only one of the many, that have occurred to prove that missionary work among the foreign element in this country, especially those of alien races, should not be undertaken by young and inexperienced girls. Parents make a great mistake in permitting it and religious but impractical enthusiasts of both sexes do a great deal of harm in encouraging it. Leave the mission work to adults, who are sufficiently worldly wise to know what they are about, and keep unsophisticated girls at home.—St. Louis Star.

THE Illinois Supreme Court has decided that a man, who keeps his saloon open on Sunday in defiance of law and announces his purpose to do so is a willful law breaker, and not entitled to receive naturalization papers, the theory being that such a man is not a desirable citizen. The Illinois Court has set a precedent based on patriotism, good sense and good law. No man can be a good citizen, who admits that he is, "knowingly, willfully and habitually violating the law of the state." That's the way the Illinois Judge stated a fact which, is patent in other states besides Illinois.

Foreign ores containing less than twenty-five percent of zinc cannot compete with Missouri zinc ores. A flat rate of one cent per pound on all ores bearing more than 25 per cent will protect the Missouri producers. The scale fixed first in the tariff bill was graded up to 30 per cent ore, but the bill will probably carry a provision for a level rate of more than one cent per pound on all grades of ores bearing more than 25 per cent of zinc, which will be a great victory for the Republican members of Congress from Missouri, who have fought hard to protect the lead and zinc industries.

"FREE TRADE CHAMP" CLARK is still guessing. He has managed to keep in the lime light most of the time for a number of years by guessing about public questions and public events. His latest guess, according to the Republican Washington correspondent, is that Congress will pass the tariff bill and adjourn Wednesday, July 26 at 4 o'clock in the afternoon. If his guess on this question is no nearer the mark than his guesses as to what his majority would be in this district, published a few days before the late election, it is not to be given much credence. He missed the size of his majority by over 2000 votes.

It is clear now, why the Democrats of the Senate were willing to make concessions on the home rule police bill, provided it could be put in operation in Kansas City immediately. It was their only way of escape from disclosures of corruption, which are coming thick and fast under the rule of a Republican Police Board appointed by the governor. Under the home rule bill in the form which the Democrats were willing to accept it, the police Department of Kansas City would have remained under Democratic control, and would have escaped the present investigation. The Democrats found it hard to fool the Republican Governor and his friends in the legislature. It was suspicious from the start to see Democratic leaders favoring absolute home rule for the cities, a thing, which their party had opposed for forty years.

The ancient city of St. Charles is to have a big celebration next October in commemoration of its one hundredth anniversary. Representative Silver of St. Charles County succeeded in putting a bill through the Legislature appropriating \$10,000, from the State Treasury to aid the good people of St. Charles in their

patriotic purpose, but the Governor was compelled to veto it because the constitution prohibits donation of public money to local communities for any purpose. The World's Fair appropriation had to be secured through a constitutional amendment. The lack of state aid will not, however, deter the St. Charles' people from making the celebration successful and glorious. They are wealthy, independent and aggressive and have a history to be proud of.

The St. Louis Republic says: "There will be something the matter of the Senate of the United States as long as there is a Republican from Missouri in it." That's true. So long as a Republican sits at a Senator's desk in the National capital, Missouri Democrats will look upon the Senate mournfully. It has been a sort of a tomb for Democratic heroes from Missouri for a third of a century. Now that the Republicans have a real live Senator there, and are ready to keep one there and send another in due time to retire the wheel horse of Missouri Democracy, who got a new lease on his seat through smooth politics played last year. The United States Senate does look queer in Democratic eyes.

FOOLISH talk about "the Armour's" being long of wheat in the central cereal market goes about. As the largest elevator holders of grain in the world, "the Armour's" are always seemingly long of wheat. The present trend of the market is full confirmation of all that The Times has contended regarding prices for months. Missouri farmers' who sell their crops now will get better prices than they will after while.—St. Louis Times.

LET old men and elderly women christianize and teach the heathen Chinese, who come to our land. It is folly to comply with the demands of these yellow devils, when they insist upon a pretty, bright-eyed young lady teacher for each Chinese pupil. It is due perhaps to this practice in the large cities, that the country was shocked a few days ago by the brutal murder of Miss Elsie Sigel, by an alleged christianized Chinaman in New York City.

**Folk For President**  
In a letter to a Nevada friend, J. W. Talbot, formerly of this city, but now of Spokane, Washington has the following to say relative to Governor Folk's visit to that place.  
"They made as great preparations for meeting him, as if he had been the president of the United States. Nothing in Spokane was too good for him. Automobile rides, carriage drives, banquets and everything that goes to make a fellow feel that he is appreciated. He is spoken of as the man from Missouri. They have launched him both in Washington and Montana for President."—Lamar Leader.

**St. Louis Live Stock Market**  
Special to the Tribune.  
National Stock Yards, Ill., June 22, 1909.—Cattle receipts 4500, mostly Natives. Market strong to a shade higher. Best steers here \$7.00, and they were not prime. General basis of values look 10 to 15 cents higher, than a week ago and indications point to light receipts for the remainder of this week. We recommend prompt shipment of all but choice steers and heifers as values will be lower in a short while. No immediate danger on choice grades.  
Hog receipts 11000. Market generally 10 cents lower than yesterday; quality only fair. One sale of choice heavies at \$8.20, represents top. Most of the good heavies sold at \$7.90 to \$8.10. Mixed and butchers \$7.65 to \$7.85; mixed packers \$7.50 to \$7.80. Good pigs \$6.75 to \$7.20; light pigs \$5.50 to \$6.50. We look for a further break in hog prices very soon, and recommend keeping good ones coming.  
Sheep receipts 8500. Market active and strong on all good sheep and lambs. Common to medium kinds slow sale and mostly lower; top spring lambs \$8.50; top mutton sheep \$5.00, something choice would have brought \$5.25. Outlook steady.
